

Year group	6	Learning Overview			Term	I
Maths 	Writing 	RE 	Science 	Geography 		
This term will heavily focus on place value and consolidating our arithmetic skills (the four operations: + - x ÷) as these are the foundations to all mathematical concepts.	This term we will be producing some writing based on the book Way Home - a fiction piece and a faction piece. The first unit we will be exploring is a re-telling of the story in third person.	CHRISTIANITY – This term, the children will focus on how Christians show their belief that Jesus is God incarnate. We will explore the ideas of what God would be like if he was on Earth, explore the terms 'human' and 'divine' and use evidence from bible stories.	This term, the children will be learning about Electricity. The children will be able to construct their own circuits and scientifically explain how electricity is passed through the components. This unit involves lots of practical work!	In Geography, we will be studying the effects of Climate Change on our world. Through case studies and sources, the children will understand the impact of the climate on our ever-changing world.		
D&T 	Computing 	PSHE 	Reading 	PE 		
Linking to our Science unit, within D&T children will be working in groups to plan, design and create their own electric cars. They will work together to ensure the electrical components work correctly to move their cars forward. The ultimate race will be held at the end of the unit!	This term, our focus is on Online Safety and Blogging. Children will learn the different ways to stay safe on the internet, understand what a good blog looks like and will then create their own blog post on their chosen topic.	In Term I, our unit is called 'Me and My Relationships'. We will look at skills needed to work together as a team, how to solve friendship issues and how to act appropriately in different scenarios.	In our reading lessons this term, we will be studying Wonder by R.J. Palacio. This story is about a child's journey to accepting his disability and explores his first time ever going to school. "You can't blend in when you were born to stand out."	This term, children will be learning new attacking and defending skills within Football and will be increasing their endurance, speed and strength within Fitness lessons.
